## OBJECTIVE

Experienced in Python, C, SQL, and Java, with a strong background in advanced data visualization and predictive modeling. Dedicated to applying data insights to solve practical challenges and drive strategic decisions. Seeking entry-level opportunities to contribute to innovative, data-driven initiatives.

## EDUCATION

**BCA** , Vignan's University Expected 2026  
CGPA : 8.87/10

**Intermediate**, NRI Junior College 2020 - 2022  
Percentage : 80.7%

**School of Secondary Education**, Al Quamar High School 2019 - 2020  
CGPA : 8.9/10

## SKILLS

<b>Technical Skills</b>	Python, Java, C, SQL, Tableau, PowerBI, Web Development.
<b>Soft Skills</b>	Leadership skills, Teamplayer, Creative skills.
<b>Additional skills</b>	Problem solving skills, Hardworking, Logical thinking.

## EXPERIENCE

<b>Intern</b> Cognifyz Technologys	Dec 2024 - Jan 2025 Andhra Pradesh, India
---------------------------------------	--

Enthusiastic and detail-oriented developer with hands-on experience in Software Development, skilled in developing innovative solutions using Java. Developed and enhanced a CRUD application with persistent data storage using Java, IntelliJ IDEA, and Maven. Implemented web scraping techniques to extract and process data efficiently.

## PROJECTS

- **Medical Insurance Cost Prediction** This project aims to predict the cost of medical insurance based on various factors such as age, BMI, smoking status, number of dependents, and region. Using Python and Machine Learning, the model analyzes historical data to estimate insurance costs accurately.
- **MINECRAFT Game** This project involves creating an interactive web-based game using HTML, CSS, and JavaScript. The game is designed to be engaging, responsive, and dynamic, offering a smooth user experience. showcases frontend development skills, interactive UI design, and JavaScript programming expertise.

## CERTIFICATIONS

- **Obtained free Online certification on java from UDEMY 2025.**
- **Obtained free online certification in Data Visualization in one of the famous online education platform called TATA .**
- **Done free online certification In HTML and CSS from great learning 2025.**

## ACHIEVEMENTS

- **Certificate of Appreciation** – Intelligent Application in **University Ideathon**.
- **Project Expo Participation Certificate** – University-level project presentation.
- **Infosys Springboard Path to Future Cohort 4 – 12-week women-focused program.**
- **Prompt Engineering for Everyone** – Certification powered by **IBM Developer Skills**.
